

## **If the light that is in you is darkness, how great is that darkness?**

If the light that is in you is darkness, how great is the darkness?

This question was presented by Jesus Christ to his followers, and if you are a follower you need to consider this as well.

You see there are those that present themselves as light but inside are darkened souls. If you can imagine a soul as being round and having a cortex lining on its exterior for protection, and that cortex lining is your god-given protection and sovereignty, and that essentially nothing can happen to you without your permission. If you have used your god-given abilities to protect and line yourself, better yet cloth yourself with Christ by wearing the things He had said, being scripture, the scribing of the soul and that you have fed your self, the self-like god made brand new, with the things He has said, then you're full of light.

For this is what the gospel provides. However for those who give away themselves through fear, to another source of light called the Illuminati, on purpose or by default, they are full of darkness. They are the darkened souls presenting themselves as light.

And because they present themselves as light this is the deception. Like a solar eclipse, being the sun darkened by the moon, or The Sun darkened by a fairy tale of fallen fairies. For even the red spikes emitting from that ball resemble Ray's if delivery mechanisms.

Laying down these simple truths, you can now see that the coronavirus picture itself is really just a logo of the unalumined or in our day some called the Illuminati which is the false source of light and illumination which is the fulfillment of if the light that is in you is darkness how great is the darkness? It is all consuming.

so you have to know that the picture of the coronavirus is a picture of these dark and souls and all who accept the gospel of the coronavirus and open up their spiritual cortex lining and receive this lie will be full of darkness in death. make no mistake about it this is the killer, the spiritual killer and the mark and which those who receive it are eternally condemned to death. That the darkened spirits have waged an all-out war against humanity. that those who fight on behalf of the coronavirus in support of the coronavirus are sometimes unknowingly working for the beast system. the beast system because it seeks to encompass all of the creations of God for its control by making it part of the internet of things however the www.i in the sky is the false god of this age and the all-knowing one, that makes sure that through its knowledge you know not the Creator God, the lover of your soul.

It is those of us who have faith in him, have our cortex lining that protects us. Why? Because fear is the weekend cortex light lining whereby people drop their guard and expose themselves for having faith in another provider, however perfect fear casts out Faith because Faith involves torment and we the elect experience no torment at all and recognize quite fully who the enemy is.

We are in the day and age when the words of Jesus Christ will become true that say, those who seek to save their life will lose it, and those who seek to lose their life will save it for eternity. For we know whom we are what we have believed and what we have inherited it and it's not the things of this age. and haven't taken the mandate to come out of her my people unless you partake of her sins and receive over judgments, we have snipped any and all ties that would have any claim on us. In the objective is that at that point we will be paid up in full on all our debts, and have not a penny in our pocket. in doing so we know that the final pass-through has no hold on us and no harm therefore us at our baptismal confession saying that we were buried in the likeness of his death and raised a newness of life, that profession saves us because we have applied those principles for it to be true. even as Jesus said the God of this age comes and has nothing in me period and he was able to pass right through the midst incognito, so do we. And because the God of this age that cometh and has nothing in us, and we've already discarded the flesh will let them have it. it is of no value to who we really are anyway because if we have used its instrumentation to get us to the other side, to pull it off and dispose of it and really does not hurt at all. And having sought God for this moment and weighing out and measuring everything that's important to our soul in receiving his answer for these things, we have made peace with all things and if it is said that our departure is at hand? Our preparation is complete we are packed and ready to go.

The bottom line here is that the coronavirus is a spiritual virus first. That if you are darkened inside full of fear, you will likely give in. However if the light that is in you is of Jesus Christ you've already passed from life death to life and they have no hold on you.
